

WISH LIST

The STAR ECO Station is an internationally award-winning non-profit environmental education and exotic wildlife rescue facility, dedicated to a mission of "Preservation Through Education". The STAR ECO Station can only exist with the participation of passionate people who care about our planet and all its inhabitants. Monetary donations are absolutely integral to facility maintenance, veterinary bills, animal food and much more. In addition, in-kind donations, as listed below, help us to provide the best care for our exotic rescued animals.

The ECO Station politely requests that all items be in good working condition, clean and in working order.
